Citizens Concerned About Feeding and Baiting of Deer

We, the undersigned citizens, feel we have not been duly represented on the issue of banning the feeding and baiting of deer. The Wisconsin DNR Advisory Board has overlooked and outright ignored the concerns of the northern half of the state. The ban, now in effect, has a tremendous impact on the northwoods. We, therefore should have been involved in the decision-making process.

We feel the DNR Advisory Board has taken action on this matter very hastily and without proper research. We, therefore, are imploring you, our elected representatives, to take action on our concerns, and reinstate the feeding and baiting of deer.

You have been chosen by the people of Northern Wisconsin to be our collective voice. You need to speak out about our concerns. As your constituents, we will use our votes in the next elections to choose a representative that listens to the people of the Northwoods, and acts on our behalf. Will these votes be cast for you? Your actions on this issue now will determine our choices in the future.

Citizens Concerned About Feeding and Baiting of Deer

We, the undersigned citizens, feel we have not been duly represented on the issue of banning the feeding and baiting of deer. The Wisconsin DNR Advisory Board has overlooked and outright ignored the concerns of the northern half of the state. The ban, now in effect, has a tremendous impact on the northwoods. We, therefore should have been involved in the decision-making process.

We feel the DNR Advisory Board has taken action on this matter very hastily and without proper research. We, therefore, are imploring you, our elected representatives, to take action on our concerns, and reinstate the feeding and baiting of deer.

You have been chosen by the people of Northern Wisconsin to be our collective voice. You need to speak out about our concerns. As your constituents, we will use our votes in the next elections to choose a representative that listens to the people of the Northwoods, and acts on our behalf. Will these votes be cast for you? Your actions on this issue now will determine our choices in the future.

Citizens Concerned About Feeding and Baiting of Deer

We, the undersigned citizens, feel we have not been duly represented on the issue of banning the feeding and baiting of deer. The Wisconsin DNR Advisory Board has overlooked and outright ignored the concerns of the northern half of the state. The ban, now in effect, has a tremendous impact on the northwoods. We, therefore should have been involved in the decision-making process.

We feel the DNR Advisory Board has taken action on this matter very hastily and without proper research. We, therefore, are imploring you, our elected representatives, to take action on our concerns, and reinstate the feeding and baiting of deer.

You have been chosen by the people of Northern Wisconsin to be our collective voice. You need to speak out about our concerns. As your constituents, we will use our votes in the next elections to choose a representative that listens to the people of the Northwoods, and acts on our behalf. Will these votes be cast for you? Your actions on this issue now will determine our choices in the future.

Citizens Concerned About Feeding and Baiting of Deer

Ball Amoco -
Phillips

kup End
of August

We, the undersigned citizens, feel we have not been duly represented on the issue of banning the feeding and baiting of deer. The Wisconsin DNR Advisory Board has overlooked and outright ignored the concerns of the northern half of the state. The ban, now in effect, has a tremendous impact on the northwoods. We, therefore should have been involved in the decision-making process.

We feel the DNR Advisory Board has taken action on this matter very hastily and without proper research. We, therefore, are imploring you, our elected representatives, to take action on our concerns, and reinstate the feeding and baiting of deer.

You have been chosen by the people of Northern Wisconsin to be our collective voice. You need to speak out about our concerns. Citizens Concerned About Feeding and Baiting of Deer

Hwy. B Bait - Phillips

We, the undersigned citizens, feel we have not been duly represented on the issue of banning the feeding and baiting of deer. The Wisconsin DNR Advisory Board has overlooked and outright ignored the concerns of the northern half of the state. The ban, now in effect, has a tremendous impact on the northwoods. We, therefore should have been involved in the decision-making process.

We feel the DNR Advisory Board has taken action on this matter very hastily and without proper research. We, therefore, are imploring you, our elected representatives, to take action on our concerns, and reinstate the feeding and baiting of deer.

You have been chosen by the people of Northern Wisconsin to be our collective voice. You need to speak out about our concerns. As your constituents, we will use our votes in the next elections to choose a representative that listens to the people of the Northwoods, and acts on our behalf. Will these votes be cast for you? Your actions on this issue now will determine our choices in the future.

 Citizens Concerned About Feeding and Baiting of Deer

We, the undersigned citizens, feel we have not been duly represented on the issue of banning the feeding and baiting of deer. The Wisconsin DNR Advisory Board has overlooked and outright ignored the concerns of the northern half of the state. The ban, now in effect, has a tremendous impact on the northwoods. We, therefore should have been involved in the decision-making process.

We feel the DNR Advisory Board has taken action on this matter very hastily and without proper research. We, therefore, are imploring you, our elected representatives, to take action on our concerns, and reinstate the feeding and baiting of deer.

You have been chosen by the people of Northern Wisconsin to be our collective voice. You need to speak out about our concerns. As your constituents, we will use our votes in the next elections to choose a representative that listens to the people of the Northwoods, and acts on our behalf. Will these votes be cast for you? Your actions on this issue now will determine our choices in the future.
